

Xxxxxx Xxxxxx has led the moisture measurement industry since XXXX by providing tested, trusted, and proven technology...backed by unmatched industry expertise, personal service, and product support.

The latest **Orion®** series of wood moisture meters continues the tradition with *non-damaging pinless meter technology* that is faster than any *pin meter*...measuring **IN the wood instead of ON the wood**. The **Orion®** series of wood moisture meters also include an *exclusive 7-year warranty* (found nowhere else in the industry)!

The **Orion® Series of Wood Moisture Meters** are setting the new standard with...

### ***Advanced Technology, Superior Accuracy, and Remarkable Versatility...***

Xxxxxx Xxxxxx maintains its laser-focused approach to providing cutting-edge technological advances to woodworkers, flooring professionals, and hobbyists. Advances that provide industry professionals with streamlined, accurate, and affordable options.

The **Orion® 950** wood moisture meter offers a superior range of features packaged into an easy-to-use interface. The featured technological advancements make this wood meter the ideal choice for serious woodworkers and wood flooring professionals.

The **Orion® 950** wood moisture meter uses **Pinless Technology**...a non-damaging way to quickly and accurately measure the moisture content of wood. (This also eliminates the cost of broken pins!)

**Orion® 950** wood moisture meters incorporate **IntelliSense™ technology**.<sup>\*</sup> This enables industry professionals to accurately determine the moisture content at depth, while minimizing the effect of surface moisture on meter readings. The **Orion® 950** wood moisture meter provides the end-user with *dual-depth capability* to measure moisture content across a wide range of thicknesses from 0.25" (6mm) through 1.5" (38mm). The **Orion® 950** wood moisture meter provides **Superior Accuracy** for:

- Wood flooring professionals
- Cabinetmakers
- Lumberyard QC personnel
- Woodworkers
- Home inspectors

The **Advanced Technology** that Xxxxxx Xxxxxx provides, ensures that **Superior Accuracy** is always in the palm of your hand!

The **Orion® 950** wood moisture meter remains accurate for the life of the meter. This is accomplished through its **Calibration Reference. Advanced Technology** that makes possible **in-the-field calibration** (*an industry exclusive*)! The **Orion® 950** wood moisture meter can be **calibrated on-site**...which means no time or money lost sending it to the company for calibration, **EVER!** The ability to **calibrate on-site**, sets the standard to maintain consistent,

**Superior Accuracy** for the life of the meter. This ensures the calibration of your **Orion® 950** wood moisture meter will remain in accordance with Xxxxxx Xxxxxx' factory standards.

**Advanced Technology** and the assurance of **Superior Accuracy** are two hallmarks of the **Orion® 950** wood moisture meter.

But there is more...The **Orion® 950** wood moisture meter gives you  
**Remarkable Versatility!**

- The **Orion®** series of wood moisture meters are **Remarkably Versatile**. Precise moisture readings displayed to one-tenth of a percent (0.1%) on its easy-to-read digital display.
- Measures across a wide range of moisture content values (4.0% - 32.0%)...a much greater range than seen in most *Pin Meters*.
- A *Press-and-Hold* feature for "hard to get" areas.
- Includes a user-programmable, audible alarm for high moisture content levels.
- A relative measurement scale for engineered wood products and...non-wood building materials.
- The programmable *species settings* cover a wide range of softwood and hardwood species.
- Incorporates a low-battery alert and an auto shutdown feature to conserve energy and preserve battery life.
- Large moisture measurement sensor area. (2.0" wide by 2.5" in length)
- Current reading can be frozen on the screen (*great for note taking!*)
- Can collect data in two modes...either manual or automatic with *viewable moisture stats*.
- Data storage of up to 100 readings...includes *high-low-average analysis*.
- Interacts with both Woodshop Pro™ and FloorSmart™...free mobile apps for your Android™ or Apple® smart device. The apps are available on either Google Play™ or iTunes®.
- Relative Humidity (RH), Temperature, Equilibrium Moisture Content (EMC), Dew Point, and Grains per Pound modes work in conjunction with Woodshop Pro™ and FloorSmart™ apps via Bluetooth®. The **Orion® 950** wood moisture meter provides you with the accurate data you need...right in the palm of your hand!

## To protect your investment...

The **Orion® 950** wood moisture meter sports a rugged protective boot, ballistic carrying case, and includes Xxxxxx Xxxxxx' *industry leading 7-year warranty!* These help to ensure that your **Orion® 950** wood moisture meter will provide you with years of precise measurements.

**The Orion® Wood Moisture Meters put Superior Accuracy, Advanced Technology, and Incredible Versatility in the Palm of Your Hand!**

\*\***IntelliSense™** active in 3/4" mode only.
